S3 ID Awarded Latest ISO 9001:2015 Accreditation

ISO 9001:2015 is the newest revision of the internationally applied standard on quality management systems; with an emphasis on principles such as strong customer focus and the effective involvement of top management. S3 ID have successfully met the requirements of the new revision and have now been awarded the new ISO certification. Achieving this accreditation affirms S3 ID's commitment to delivering a consistent and effective quality management system. It was made a priority to achieve the award, well ahead of the three-year transition period deadline, and it is a true testament to S3 ID's dedication to providing the best possible service to their customers based on continual improvement.

Paul Wilkinson, S3 ID's Quality Assurance Manager, comments, *"Attaining the newly revised ISO 9001:2015 accreditation is a great achievement for S3 ID. Sustaining customer satisfaction and confidence is always at the forefront of our efforts."*
